

AGP C14 Concrete Saw

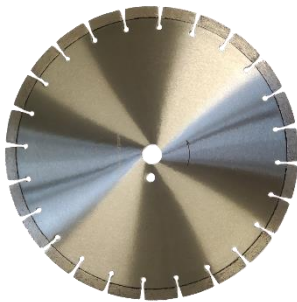

The C14 is a hand-held saw for concrete, masonry, and stone. The detachable guide rollers make it easy to keep the blade perfectly square to the cut while the integrated water feed system allows fine tuning of the water flow. While designed for wet cutting but is perfectly suitable for dry cutting. There is a vacuum port which can be used either for wet slurry collection or for dry dust collection.

- Magnesium blade guard and gear box for minimal weight.
- Tool-free blade guard angle adjustment.
- Load warning lamp.
- Water feed system with fine flow adjustment and quick release.
- Detachable guide rollers for square cuts and maximum control.

Technical Data:

- Power Input: 2800W
- Load Speed: 4500rpm
- Blade Diameter: 350mm
- Max Cutting Depth: 125mm
- Dimensions: 611mm x 245mm x 280mm
- Weight: 7.9kg
