

RAIMONDI FLUID MIX

A mixing drum attached to a trolley to easily manoeuvre and pour out the contents.

Mixing machines sold separately.

- For mixing fluid materials such as self-levelling, premixed, cement-based grout, paint and others.
- Perfect mixing, time for mixing cut off 50%, it eliminates fatigue for transporting materials.
- Sturdy steel frame, rubber wheels, dust-free cap.

CODE	RA238EUN
Bucket Size	75 Litres
Thread	M14
Dimensions	54 x 60 x 77cm
Weight	17kg

AGP EV52

The AGP EV series electric mixers with revolutionary ergonomic design and sturdy mechanics features electronic speed control thumb wheels which allows the operator to adjust the speed without taking his hands off the handles.

Compound, curved handle gives extra strength and ideal ergonomic hand positioning. Locking trigger switch. Fibre reinforced nylon motor housing with easily accessible brushes. Anti-dust staggered vent.

CODE	PTM-EV52
Voltage	230V
Power	1300W
Load Speed	150- 400 / 250 – 700rpm
Thread	M14
Dimensions	345 x 322 x 190mm
Weight	4.1kg
Helix Paddle 140mm x M14 PT-EV42/52-0041	

AGP EV160

The AGP EV160 shares all the features of the EV52 but provides more power, higher load speeds, and a larger 160mm paddle compared to the EV52's 140mm mixing paddle.

We recommend using the AGP EV52 and EV160 electric mixers with our Raimondi Fluid Mix bucket.

CODE	PTM-EV160
Voltage	230V
Power	1600W
Load Speed	180 – 350 / 280 – 550rpm
Thread	M14
Dimensions	350 x 322 x 190mm
Weight	5.6kg
Helix Paddle 160mm x M14 PT-EV160-0041
