

Swiflex CX Eco

Diamond Grit Sandpaper

AVAILABLE GRITS
FOR DRY USE

No need for large stacks of sandpaper! Save time, save money, improve your work efficiency.

DIAMOND SANDPAPER FOR MARBLE AND LIMESTONE

KGS Swiflex®CX ECO has been specially developed to substitute sandpaper and provide economical, yet consistently efficient performance.

REPLACEMENT OF CONVENTIONAL SANDPAPER WITH FOLLOWING BENEFITS:

- Coarse grits are up to 2-4 times more aggressive than conventional abrasives
- Polishing results are superior to conventional abrasives with no discolouration of the stone surface
- Exceptional productivity with improved lifetime compared to conventional abrasives (coarse grits last 3-4 times longer, fine grits last up to 15 times longer)
- Fewer discs changes, better work efficiency
- Environmentally friendly - less resin dust of tool due to longer lifetime, less waste because significantly less discs are needed
- Faster working and less resin dust is beneficial for the life of the angle grinder

FEATURES:

- Can be used on both standard speed angle grinders (up to 6500 rpm) as well as high speed angle grinders (up to 11000rpm).
- Available diameters: 100mm (Other sizes are available on request)
- Colour coded with QRS backing
